

Empire Beauty School

Beauty School Build-Out
Vernon Hills, IL

Sequoia General Contracting Corp was awarded the build out of an 8,000 square foot empty retail mall space in Vernon Hills, Illinois that was transformed into the Empire Beauty School. Working within a tight project schedule, Sequoia worked diligently with their trade contractors, Newman Architecture and Empire's representative, Tom Mansell, to ensure a beautifully crafted learning facility was ready for operation by the prospective students' enrollment period. The layout, function and aesthetic appearance of Empire Beauty School has a positive effect on the creativity and professional development of each student.
